

Have You Real Estate For Sale or Exchange?

On the first of February we will issue a new and complete list of properties for sale, and if you have anything for sale or exchange we shall be glad to have you call or write us, as we will be glad to list same and include in the February list. If you have property you really want to sell, write or call. We are selling other peoples' farms, why not yours? We have a very large list of prospective buyers—live ones with whom we are in correspondence. It makes no difference where your property is located. We mean business. It's up to you.

There's the Grip That Will Not Slip

The Square Deal Lock double-grips the one-piece stay wires and the strand wires together so they cannot possibly slip. It holds every joint of every rod of Square Deal Fence so your stock can't spread the stays—

Holds Every Strand With An Iron Hand

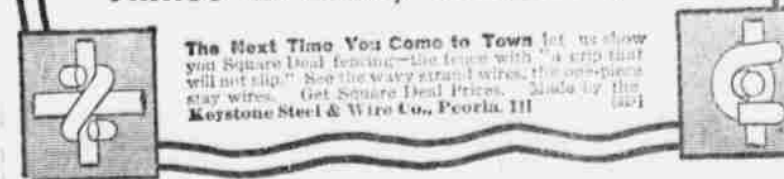

Lets you forget you have stock full of life and energy on one side of the fence and fields of growing grain on the other. Every Square Deal Lock is a lasting guarantee of fence satisfaction. There are no fence welds to snap. No cumbersome knots to hold moisture, gather rust and weaken the wires. The simplest, strongest, safest lock ever used on a wire fence. See it before you buy another rod of fencing.

Square Deal Fence

The Wavy Strand Wires give Square Deal fencing elasticity—make it springy so it will quickly come back into shape after a sudden heavy strain—keep it tight and trim the whole year round. The wires in Square Deal fences are woven into the strand wires. They won't stretch out and let the fence sag between posts. They are like so many steel springs continually stretching the fence tightly, giving your fields a well-kept, prosperous appearance.

The One-Piece Stay Wires prevent sagging, barging or buckling to let the pigs under. They help support Square Deal fencing so it requires fewer posts, saving you money, time and labor.

James E. Bard, Chadwick, Mo.

Woven Wire Fence, per rod, 60 cents and up.
